

dyson

The cleaner that doesn't lose suction.

Australia's No.1
vacuum cleaner.
(GfK unit data)

Dyson supporting

**ASTHMA
FOUNDATIONS**
AUSTRALIA

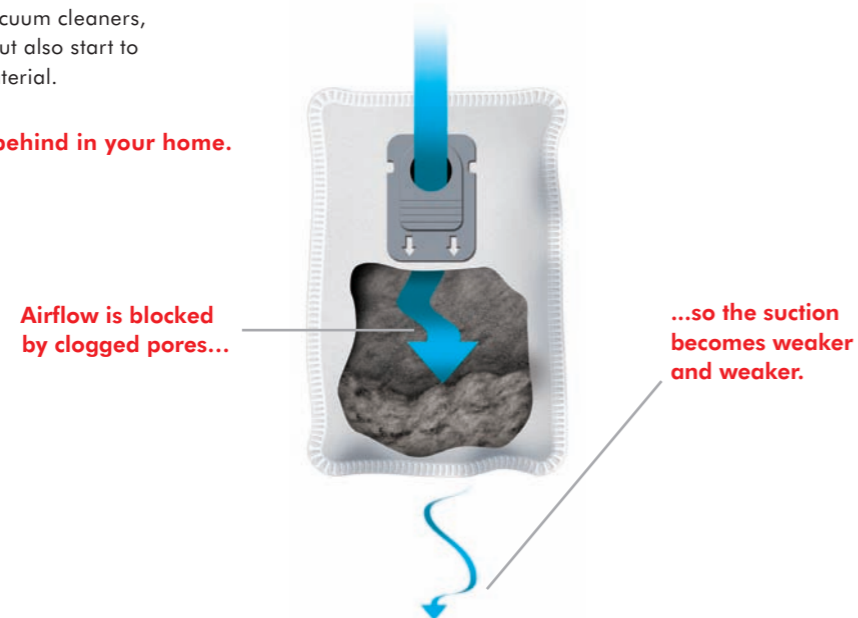

Why other vacuum cleaners lose suction and don't work properly.

Bagged cleaners don't work properly.

When you start using bagged vacuum cleaners, dirt and dust collect in the bag but also start to clog the tiny holes of the bag material.

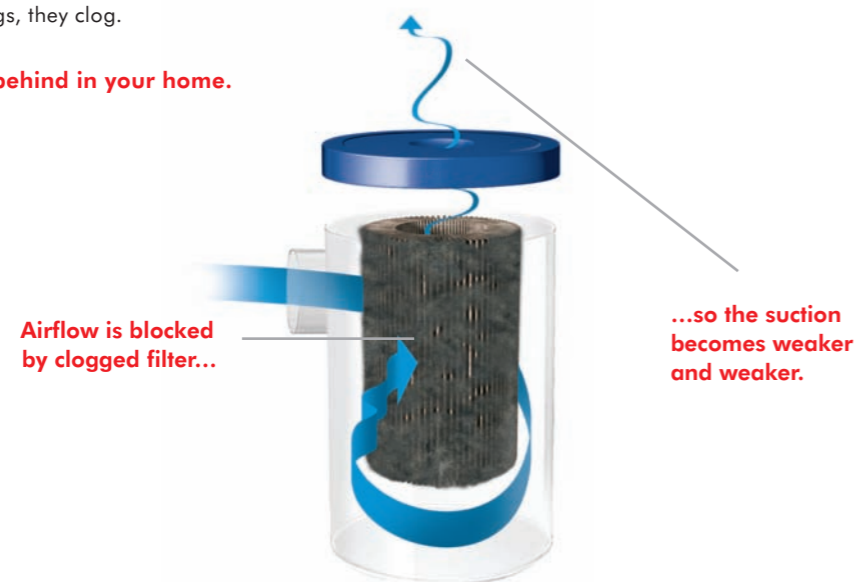

Result:
Loss of suction, leaving dirt behind in your home.

Most other bagless cleaners don't work properly either.

Their technology doesn't capture the dirt as efficiently as a Dyson, so they often end up relying on the central filter to trap the fine dust. Just like bags, they clog.

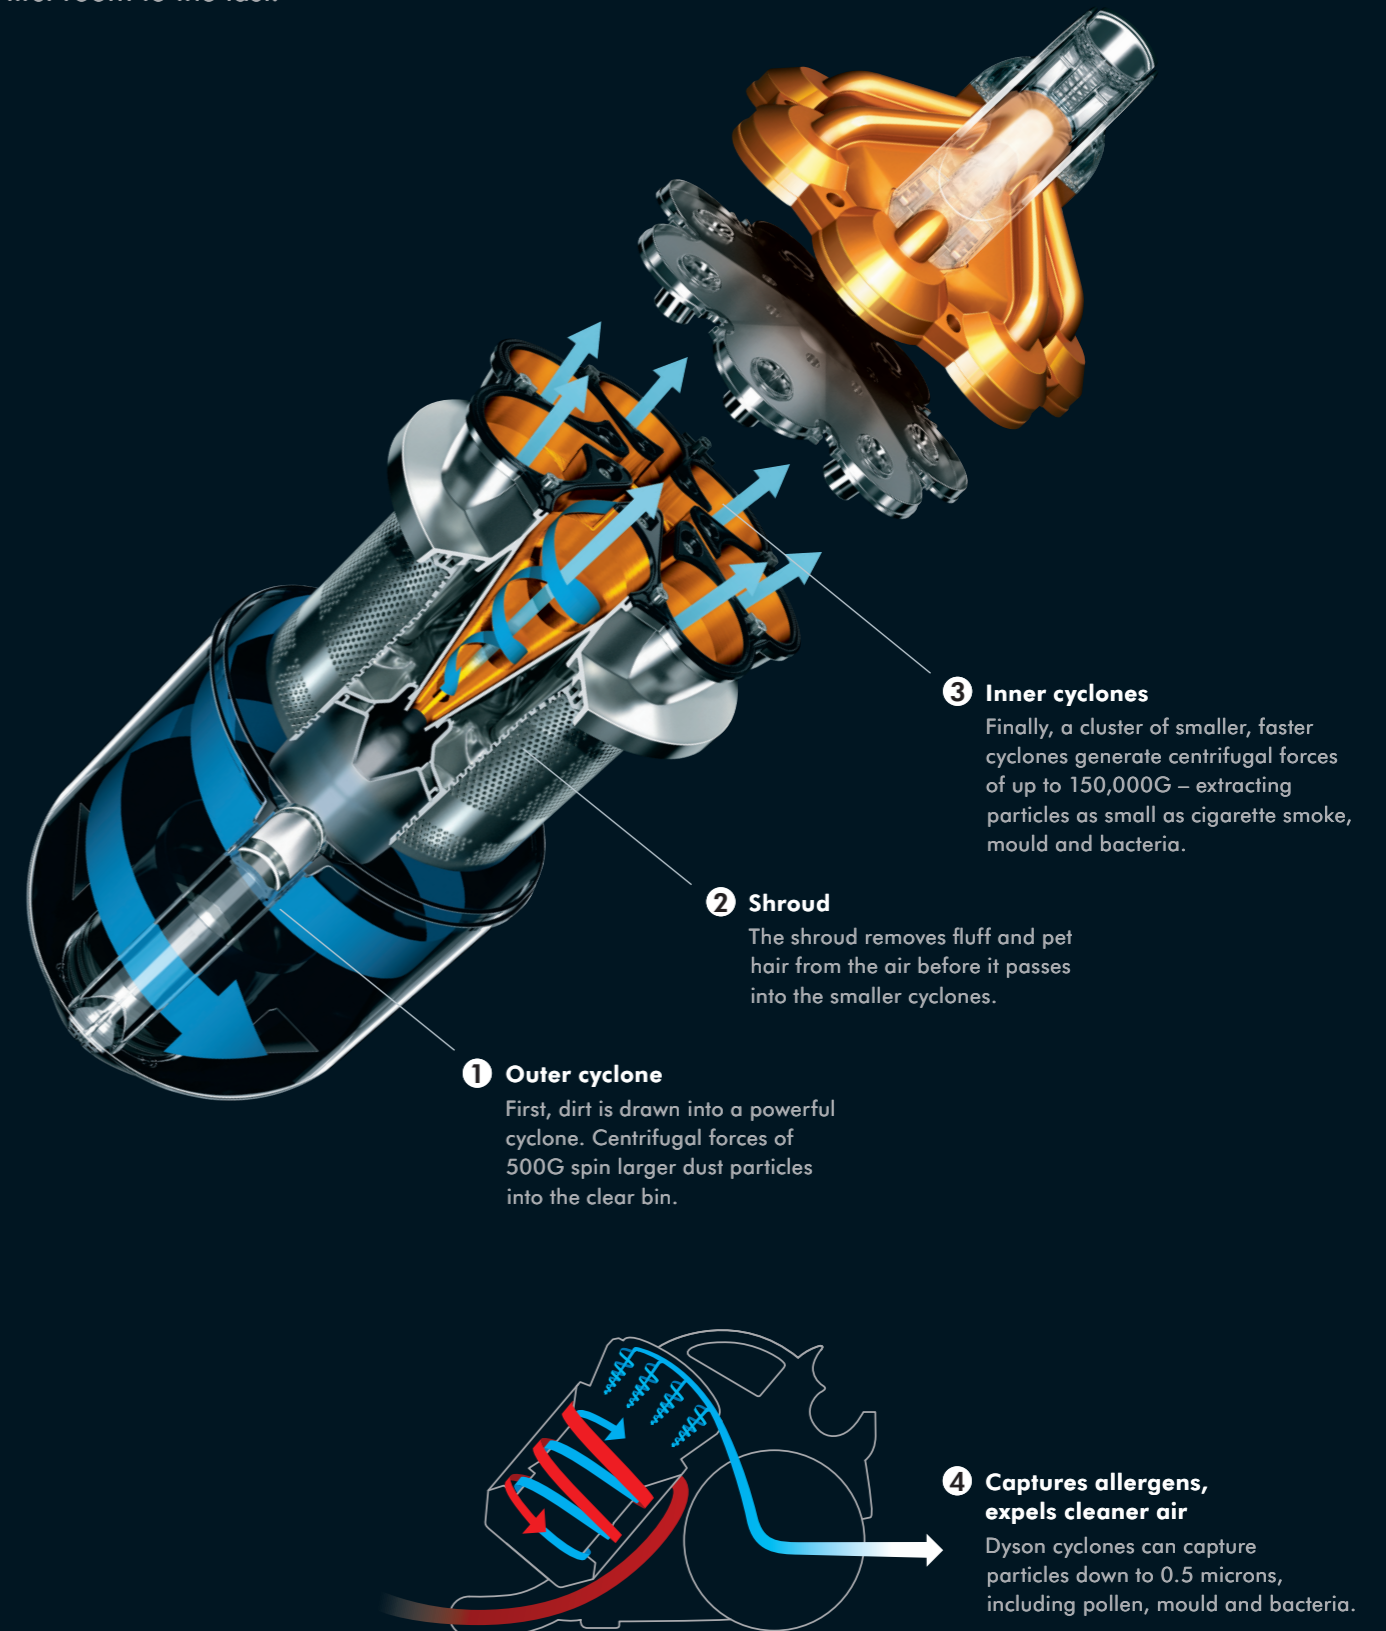

Result:
Loss of suction, leaving dirt behind in your home.

Dyson technology is different – it doesn't lose suction.

Radix Cyclone™ technology

Patented technology that doesn't lose suction as you vacuum, giving you a cleaner home from the first room to the last.

Dyson machines endure 550 different physical tests. Switched 20,000 times. Pushed 1,357,168 metres. Hoses kinked 7,280 times. Bin opened 1,560 times.

Dyson vacuum cleaners are tough and durable, made using the strongest materials available – in fact, we use the same material used in crash helmets and riot shields.

All Dyson vacuum cleaners are approved by the National Asthma Council Australia.*

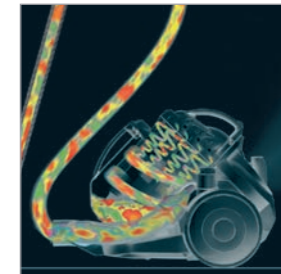

Choosing a vacuum cleaner with a HEPA filter isn't enough.

Many vacuum cleaners claim to be allergy and asthma friendly. Some have HEPA filters or antibacterial coatings. The problem is none of these vacuum cleaners do everything you need to remove dust, dirt and allergens.

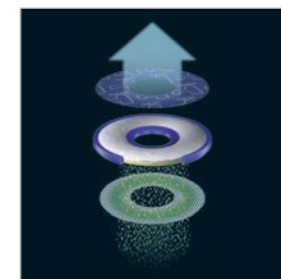

What makes a Dyson vacuum cleaner different?

No loss of suction - Picks up more room after room

Expels cleaner air - captures allergens down to 0.5 microns

HEPA filter - an extra safe guard on selected Dyson vacuum cleaners

Hygienic - no dusty, dirty vacuum bags to handle

Approved by the National Asthma Council*

*All Dyson barrel and upright vacuum cleaners.

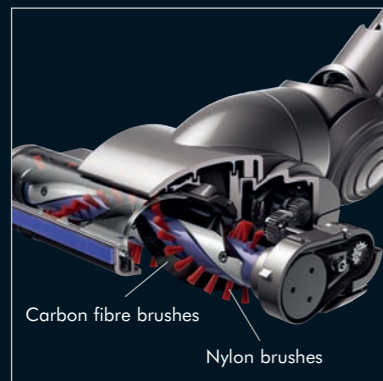

dyson digital slim

The most powerful lightweight cordless vacuum cleaner.

Powered by Dyson digital motor

3 times faster than conventional motors. Creates the most power-efficient cordless vacuum cleaner.

Motorised floor tool with carbon fibre brushes

Ultra-fine conductive carbon fibre brushes clean hard floors. Rotating nylon brushes remove ground-in dirt from carpets.

Lithium-ion battery

Recharges up to 3 times faster than others.

NEW

DC 35 multi floor

For every floor type. Up top, down below and in-between.

Additional features:

Detachable long-reach wand

Reaches up high, down low and into awkward gaps.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Remote charging

Battery can be recharged away from the machine and the docking station.

Crevice tool

Extra tool for cleaning in tight gaps and awkward spaces.

Combination accessory tool

Debris nozzle converts to a brush tool for soft dusting.

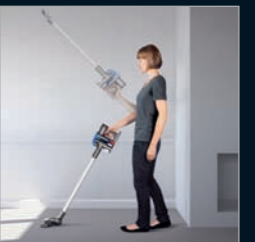

Docking station

Recharges and stores the machine and attachments when not in use.

Radix Cyclone™ technology

Patented technology that doesn't lose suction as you vacuum.

Up top, down below and in-between

Includes tools and wand for cleaning every floor type and awkward spaces.

Dual power mode

15 minutes

High constant suction. (13 mins with motorised floor tool attached).

6 minutes

Max power for more difficult tasks.

dyson stowaway

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

DC 23 motorhead

Picks up more dirt. Easier to steer.

Additional features:

Sits on stairs

Designed to sit on stairs while you clean them.

Lifetime HEPA filter and Bactisafe™ screen

HEPA filter with Bactisafe™ screen traps and kills bacteria and mould on contact. Ideal for people with asthma and allergies.

Hard floor tool

With debris channel for high pick-up on hard floors.

On-board tool storage

Brush, crevice and stair tools store on the machine so they're always on hand.

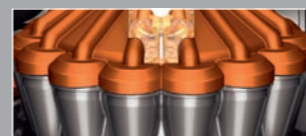

Approved by the National Asthma Council Australia.

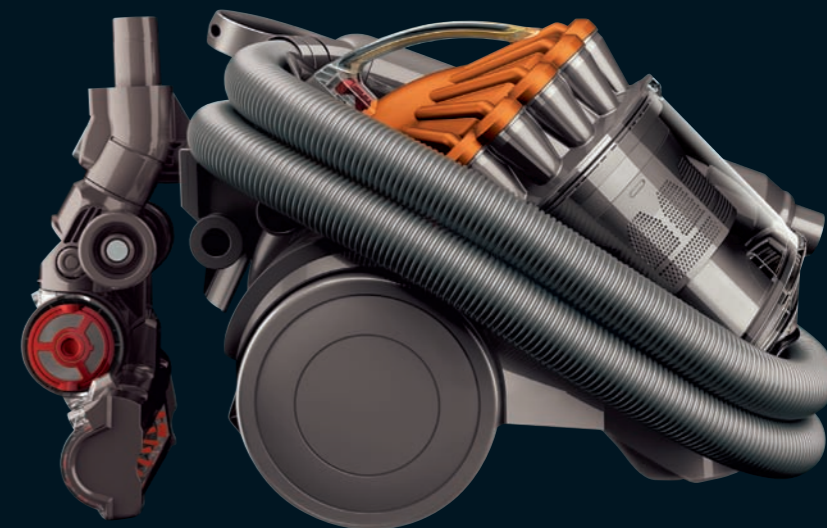

dyson stowaway

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

DC 23 turbine plus

For high performance on carpets, hard floors and upholstery.

Additional features:

Sits on stairs

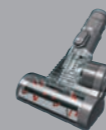

Designed to sit on stairs while you clean them.

Lifetime HEPA filter and Bactisafe™ screen

HEPA filter with Bactisafe™ screen traps and kills bacteria and mould on contact. Ideal for people with asthma and allergies.

Mini turbine head

Quick pet hair pick-up from stairs and upholstery.

Swivel hard floor tool

180° pivot with debris channel for high pick-up on hard floors.

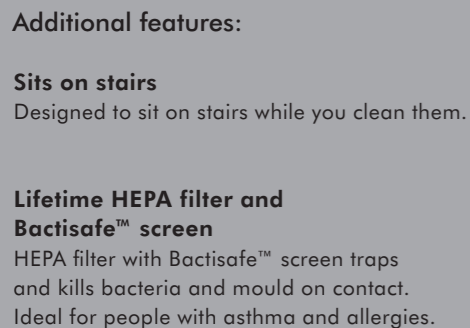

On-board tool storage

Brush, crevice and stair tools store on the machine so they're always on hand.

Approved by the National Asthma Council Australia.

Radix Cyclone™ technology + Intermediary cyclone

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

Telescope Wrap™ system

Hose and wand compress and wrap for easier storage.

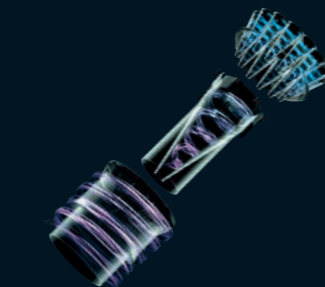

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Easy steer motorised head

Motorised brush bar for best pet hair and dirt pick-up from carpets. Foot operated brush control turns brush bar off to protect delicate rugs and hard floors.

Radix Cyclone™ technology + Intermediary cyclone

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

Telescope Wrap™ system with lightweight wand

Hose and lightweight wand compress and wrap for easier storage.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Turbine head

For high pick-up on carpets. Brush bar can be turned off for delicate rugs and hard floors.

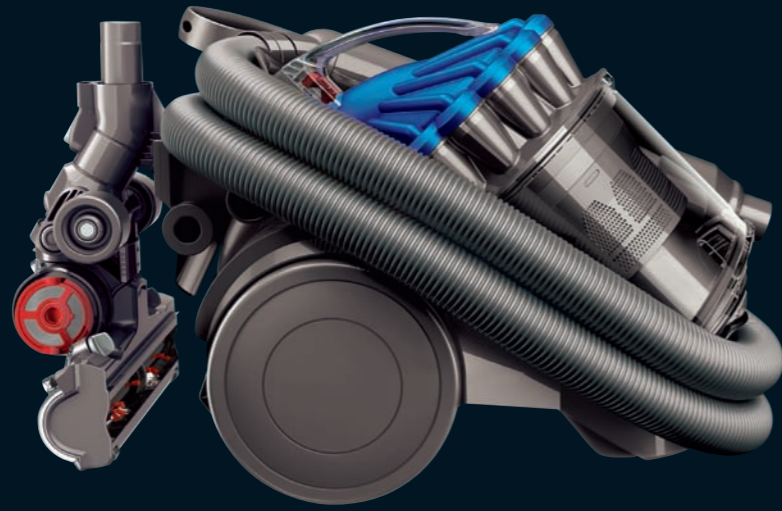

dyson stowaway

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

DC 23 turbine

For high performance on carpets.

Additional features:

Sits on stairs

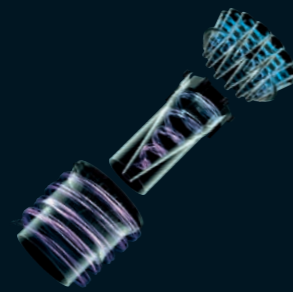

Designed to sit on stairs while you clean them.

Lifetime HEPA filter and Bactisafe™ screen

HEPA filter with Bactisafe™ screen traps and kills bacteria and mould on contact. Ideal for people with asthma and allergies.

On-board tool storage

Brush, crevice and stair tools store on the machine so they're always on hand.

Radix Cyclone™ technology + Intermediary cyclone

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

Telescope Wrap™ system with lightweight wand

Hose and lightweight wand compress and wrap for easier storage.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Turbine head

For high pick-up on carpets. Brush bar can be turned off for delicate rugs and hard floors.

Approved by the National Asthma Council Australia.

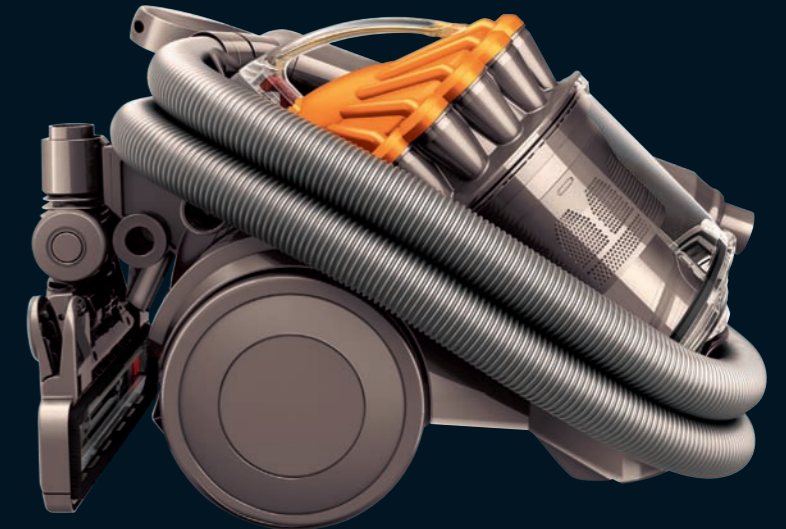

dyson stowaway

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

DC 23 contact

Additional features:

Sits on stairs

Designed to sit on stairs while you clean them.

On-board tool storage

Brush, crevice and stair tools store on the machine so they're always on hand.

Radix Cyclone™ technology + Intermediary cyclone

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

Telescope Wrap™ system with lightweight wand

Hose and lightweight wand compress and wrap for easier storage.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Low reach Contact Head™ tool

Articulates to maintain contact with the floor for a quicker clean. Switches easily between carpet and hard floors.

Approved by the National Asthma Council Australia.

dyson

The cleaner that doesn't lose suction.

DC
29

Additional features:

Lightweight adjustable wand

Convenient tool storage

Debris nozzle converts to a brush tool for dusting and stair tool store on the wand so they're always on hand.

Radix Cyclone™ technology
Patented technology that doesn't lose suction as you vacuum.

Dual mode floor tool
For high dirt pick-up on all floor types. Switches easily between carpets and hard floors.

Approved by the National Asthma Council Australia.

dyson ball

Doesn't lose suction.
No more awkward moves.

DC
25 hepa plus

Ideal for people with asthma and allergies.

Additional features:

Hygienic one-touch bin emptying

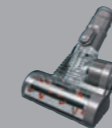

Just push the button, no need to touch the dirt.

Lifetime HEPA filter

Ideal for people with asthma and allergies.

Mini turbine head

Quick pet hair pick-up from stairs and upholstery.

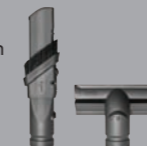

Combination floor tool

Switches easily between carpets and hard floors. Low reach to clean under beds and sofas.

On-board tool storage

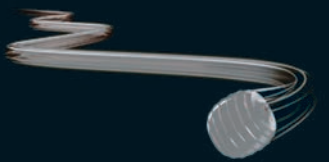

Debris nozzle converts to a brush tool for dusting. Stair tool is also stored on the machine so they're always on hand.

Approved by the National Asthma Council Australia.

Radix Cyclone™ technology
Patented technology that doesn't lose suction as you vacuum.

Easy steer Ball™ technology
Steers smoothly with a turn of the wrist.

Quick-draw Telescope Reach™ wand
Quick-release wand for instant stair and high reach cleaning.

Motorised brush bar and brush control
Motorised brush bar removes more pet hair and dirt from carpets. Turn the brush bar off at the touch of a button to protect delicate rugs and hard floors.

dyson ball

Doesn't lose suction.
No more awkward moves.

DC
25

Additional features:

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Combination floor tool

Switches easily between carpets and hard floors. Low reach to clean under beds and sofas.

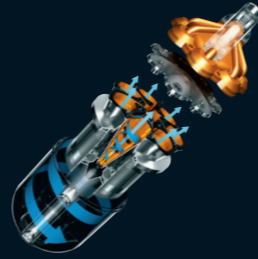

On-board tool storage

Debris nozzle converts to a brush tool for dusting. Stair tool is also stored on the machine so they're always on hand.

Approved by the National
Asthma Council Australia.

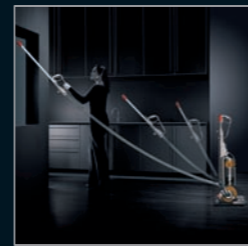

Radix Cyclone™ technology

Patented technology that doesn't lose suction as you vacuum.

Easy steer Ball™ technology

Steers smoothly with a turn of the wrist.

Quick-draw Telescope Reach™ wand

Quick-release wand for instant stair and high reach cleaning.

Motorised brush bar and brush control

Motorised brush bar removes more pet hair and dirt from carpets. Turn the brush bar off at the touch of a button to protect delicate rugs and hard floors.

dyson

The cleaner that doesn't lose suction.

DC
33

Additional features:

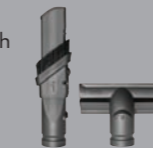

Combination floor tool

Switches easily between carpets and hard floors. Low reach to clean under beds and sofas.

On-board tool storage

Debris nozzle converts to a brush tool for dusting. Stair tool is also stored on the machine so they're always on hand.

Approved by the National
Asthma Council Australia.

Radix Cyclone™ technology

Patented technology that doesn't lose suction as you vacuum.

Telescope Reach™ wand

Telescope wand for stair and high reach cleaning.

Brush control

Lets you switch the brush bar off when cleaning delicate rugs and hard floors.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

dyson compact

Doesn't lose suction.
Compact. Concentrated technology.

DC 22 turbine

For high performance on carpets.

Additional features:

Telescope Wrap™ system with lightweight wand

Hose and lightweight wand compress and wrap for easier storage.

Lifetime HEPA filter

Ideal for people with asthma and allergies.

Swivel hard floor tool

180° pivot with debris channel for high pick-up on hard floors.

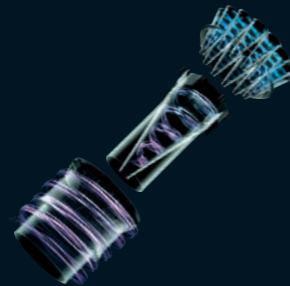

On-board tool storage

Debris nozzle converts to a brush tool for dusting. Stair tool is also stored on the wand so they're always on hand.

Approved by the National Asthma Council Australia.

Radix Cyclone™ technology + Intermediary cyclone

Doesn't lose suction. Captures more microscopic dust than any other cyclone.

Concentrated technology

1/3 smaller and lightweight. Ideal for villas and apartments.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Turbine head

For high pick-up on carpets. Brush bar can be turned off for delicate rugs and hard floors.

dyson compact

Doesn't lose suction.
Compact. Concentrated technology.

DC 24 hepa

Ideal for people with asthma and allergies.

Additional features:

Reversible wand

Reversible wand for stairs and high reach cleaning.

Hygienic one-touch bin emptying

Just push the button, no need to touch the dirt.

Lifetime HEPA filter

Ideal for people with asthma and allergies.

Mini Flat Out™ head

Compact and low profile for easy cleaning under very low furniture.

On-board combination accessory tool

Debris nozzle converts to a brush tool for soft dusting.

Approved by the National Asthma Council Australia.

Radix Cyclone™ technology

Patented technology that doesn't lose suction as you vacuum.

Small in size, big on performance

Handle compresses to one third of its height, so it's easier to store when not in use.

Easy steer Ball™ technology

Steers smoothly with a turn of the wrist.

Motorised brush bar and brush control

Motorised brush bar removes more pet hair and dirt from carpets. Turn the brush bar off at the touch of a button to protect delicate rugs and hard floors.

dyson compact

Doesn't lose suction.
Compact. Concentrated technology.

DC 26 hepa

The performance of a big vacuum.
And no loss of suction.

Additional features:

Lightweight adjustable wand
Ergonomically designed for ease of use.

Lifetime HEPA filter
Ideal for people with asthma and allergies.

Swivel hard floor tool
180° pivot with debris channel
for high pick-up on hard floors.

Convenient tool storage
Combination brush/crevice
tool and stair tool store
on the wand so they're
always on hand.

Approved by the National
Asthma Council Australia.

Radix Cyclone™ technology
Patented technology that doesn't
lose suction as you vacuum.

Ultra lightweight compact
Ideal for studios and one
bedroom flats.

**Hygienic one-touch
bin emptying**
Just push the button,
no need to touch the dirt.

Dual channel floor tool
Two separate airflow channels
direct suction evenly - for high
dirt pick-up across all floor types.

dyson handheld

The most powerful handheld.

Available in two models.

DC 31 motorhead

Powerful motorised head for best
pet hair pick-up.

DC 31

The most powerful handheld that
doesn't lose suction.

Additional features:

Hygienic one-touch bin emptying
Just push the button, no need to
touch the dirt.

Lightweight and ergonomic
Balanced weight distribution for easy handling.

Up to 3x faster re-charging
Lithium ion battery technology –
re-charges up to 3x faster than others.

LED battery indicator
Indicates battery charge level and
diagnostic status.

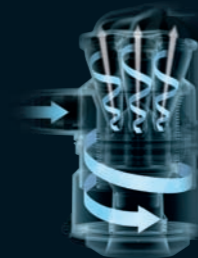

Direct charging
Charger plugs directly into the
battery - doesn't have to be
attached to the machine.

Crevice tool
Extra tool for cleaning in tight gaps
and awkward spaces.

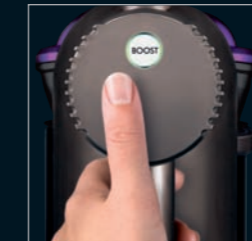

Combination accessory tool
Debris nozzle converts to a
brush tool for soft dusting.

Radix Cyclone™ technology
Patented technology that doesn't
lose suction as you vacuum.

Dyson digital motor
More powerful, using less energy
than conventional motors.

Accessory colours may vary from pictures shown.

Which Dyson is right for you? Here are some guidelines to assist with your choice.

- Each Dyson is suitable for all floor types. But different heads are designed for improved pick-up on different surfaces. A turbine or motorised head provides high pick-up on carpets. A hard floor tool with soft bristles, is ideal for hard floors.
- While all barrel and upright Dyson vacuum cleaners are approved for people with asthma and allergies, those with a HEPA filter are the best choice.
- If pets are part of your family and you have carpet, look for a model with a turbine or motorised head for high dirt and pet hair removal.
- Do you have a preference for a barrel, upright, compact, handheld or handstick?

All Dyson vacuum cleaners feature:

- No loss of suction as you vacuum
- Dyson Radix Cyclone™ technology
- Captures allergens, expels cleaner air
- No ongoing costs – lifetime filters
- Suitable for all floor types
- 2 year guarantee
- 7 days a week Helpline 1800 239 766
