

Real BBQ performance

Cooking results never thought possible in an electric grill.

No tanks. No lighting. No fuss.

Simply plug in and switch on. Never run out of propane, carry heavy tanks or fuss with matches.

Even heat – no flare ups

Our EvenSear™ cooking system heats the entire 1400 sq. cm grill surface evenly, for consistent results.

Easy, automatic grilling

The thinking is done for you and reminds you when to flip and serve.

Perfect rotisserie*

Convert the EvenSear™ element with a simple flip and enjoy perfect roasts every time.

*Rotisserie sold separately.

POWERCHEF & POWERGRILL
ELECTRIC BARBEQUES

Dimplex®
outdoor living™

DIMPLEX® POWERGRILL ELECTRIC BARBEQUE

The simple and easy to use Dimplex® POWERGRILL Electric Barbeque eliminates the worries and hassles associated with gas barbeques – no hotspots, empty gas tanks or flare ups making it the ideal, safe and clean alternative to gas. Now unit and apartment dwellers can enjoy safe gas free barbequing on their balconies!

The simple and easy to use **Dimplex® POWERGRILL Electric Barbeque** features:

- EvenSear Dual Cooking System with dual element
- Manual control with dial light indicating when barbeque is on
- Safe & fast efficient heat up with no unwanted fumes
- 1400 square centimeters of complete grilling surface including corners
- Stainless steel upper grill making cleaning easy and simple
- Durable weatherproof matt black finish
- Lid down cooking to conserve energy and reduce cooking time
- Convenient fold away top shelf & under unit shelves for storage
- Convenient tool holders to keep cooking area neat and tidy
- Durable wheels for easy portability
- Easy plug in operation – 10amp GPO

DIMPLEX® POWERCHEF ELECTRIC BARBEQUE

Designed for the barbeque enthusiast, the revolutionary Dimplex® POWERCHEF Electric Barbeque offers the performance of gas with the simplicity, safety and precision of electric cooking! POWERCHEF takes the guess work out of barbequing via its exclusive electronic advanced control system and by searing and cooking food fast and easy with mouth-watering results.

The simple and easy to use **Dimplex® POWERCHEF Electric Barbeque** features:

- EvenSear Dual Cooking System with dual element
- Precision cooking control via an Advanced Control System provides a choice of either MANUAL or PROGRAM modes
- Electronic touch control panel
- Safe & fast efficient heat up with no unwanted fumes
- 1400 square centimeters of complete grilling surface including corners
- Stainless steel hood & heavy duty black powder coated cabinet
- Storage cabinet with magnetic locking door
- Rotisserie option (sold separately)
- Lid down cooking to conserve energy and reduce cooking time
- Convenient tool holders to keep cooking area neat and tidy
- Durable wheels for easy portability
- Easy plug in operation – 10amp GPO

evensear™
ACTIVE HEAT TECHNOLOGY

Both the **POWERGRILL** and **POWERCHEF** feature the **EvenSear™ Cooking System**; a dual layer grill system whereby the top grill sears the food, with the lower level element cooking gently and evenly by additional heat radiating through. By applying energy through both grill layers, heat flows evenly and consistently across the entire grill, thereby eliminating “hot and cool spots”. The **EvenSear™** system ensures that all energy supplied to the grill is directly used to cook your food, with the active cooking surface able to reach temperatures up to 340° Celcius.
