

Dimplex[®]
A world of expertise

The
fire collection

the widest range of electric fires imaginable

May 2012

www.dimplex.com.au

choosing your fire

Why Dimplex Electric Fires?

There is nothing quite like a fire – it creates a wonderful feeling of comfort and cosiness. And with a Dimplex electric fire you can enjoy these benefits at the flick of a switch.

Installation is also easy with none of the cost and siting constraints associated with flue and gas connections and no need for annual servicing either. All Dimplex electric fires come complete with a fitted plug and many don't even require a fireplace. You simply plug-in and go!*

At Dimplex safety is always a priority too, so all our electric fires have the added reassurance of BEAB approval** which means they have been produced to the most stringent safety requirements for domestic electrical appliances.

A Dimplex electric fire will bring your home to life, creating a comforting ambience in any room, using our original and the world's best selling electric flame effect: Optiflame. With a wide range of traditional and ultra modern

* wall mounted and inset fires require some installation.

** approved or awaiting approval at time of printing.

product range

Portable

Pages 3-8

A stunning range of designs suitable to move from room to room.

Freestanding

Page 9-10

An impressively authentic, stove style fire that can be used almost anywhere.

inset fires

Optiflame[®]

Instantly bring a wall or existing fireplace to life with the incredibly lifelike electric flame found in the BF series from Optiflame.

The hand-finished LED inner glow logs and pulsating embers are molded from wood logs for incredible realism, ensuring that your home is not only warm, but full of ambience.

Available in three sizes, and with an array of decorative options to choose from, there is sure to be an Optiflame combination to suit your needs and decor.

The BF33 and BF39 Optiflame fireboxes also feature the exclusive Purifire™ air treatment system - the world's first integral air filtering electric fireplace. So not only will an Optiflame built-in fireplace look great, but will help improve air quality around your home.

purifire[™] Air treatment system

The BF33 and BF39 electric firebox features the exclusive Purifire™ air treatment system – the world's first integral air filtering electric fireplace.

Breakthrough air treatment system cleans 24/7

(BF33DXP-AU & BF39DXP-AU)

- Uses a standard size 25cm x 50cm high-efficiency washable filter.
- Air filter operates with the heater or maybe run with the air-circulating fan only to provide continuous, quiet cleaning.
- Exceeds MERV 10 (Minimum Efficiency Reporting Value) rating - filters as small as 1 micron.
- Circulates and cleans the air of an average room four times per hour (Based on 3.6m x 4.3m room)
- Filter needs to be washed/replaced only once per year on average.

Inset Fires

BF33DXP-AU

Optiflame[®]

- New Built-In Purifier air treatment system - world's first integral air filtering electric fireplace.
- Realistic hand-finished logs with natural inner glow and pulsating embers
- Patented electric flame technology
- Remote control giving armchair selection of on/off heat output
- Operates with flame only or flame with heat
- Easily accessible manual controls
- Smooth edges allow for flush mounting to drywall/tile or for installation into finished wall opening
- Optional decorative surround trim (black, stainless steel or stone)
- Optional Bi-fold look or tamperproof glass door installs - no tools required
- Optional mantle surround installs - no tools required
