- ✓ 2 ½ Star Energy Rating

Express Freeze

LG's Express Freeze lets you freeze large amounts of food properly. When activated it stays on for a 24 hour period to ensure your food is properly frozen. After 24 hrs it automatically switches off and returns to the previous setting.

Moisture Balance Crisper

LG's Moisture Balance Crisper maintains the moisture balance in the crisper. The lid of the crisper has a lattice structure that retains evaporated moisture from fruit and vegetables, to help keep them fresher for longer.

Reversible Doors

Reversible Doors allows for the fridge to be changed from a right to left hinge door opening without the purchase of additional accessories.
