

Please note: Smeg ceramic cooktops are highly-efficient cooking surfaces. They are at their most efficient with flat-based cooking vessels. We recommend stainless steel exterior based vessels — that is, the surface of the vessel making contact with the ceramic surface be of stainless steel. This flat stainless steel surface will help preserve the unblemished look of the ceramic surface and help avoid scratching and permanent marking.

finishes	black ceramic surface, frameless
size	520mmD x 590mmW x 49mmH
installation	built-in one-piece hob
capacity	four zones — 2 x 1800 watt, 180mm diameter 2 x 1200 watt, 145mm diameter
thermostat	9 heat settings per zone
safety	lock 'on' four residual heat indicators power ON indicator
warranty	two years parts and labour

TOUCH-SENSOR CONTROLS

Each cooking zone has nine heat levels that can be digitally increased or decreased sequentially.

HIGH-SPEED COOKING

With visible high heat in three seconds and full heat obtained in less than seven seconds, economies are achieved by the time saving and the efficient fast use of energy.

SPACE-SAVING DESIGN

Two pairs of cooking zones are diagonally positioned for ergonomic access and maximum space efficiency.

RESIDUAL HEAT SAFETY

Each cooking zone's control area will flash 'H' for residual heat if the zone is no longer in use but still retains a residual heat of 60° Celsius or above.

INSTALLATION

With only a 45mm displacement into the benchtop, the cooktop allows for easy installation underbench of either oven, dishwasher, cupboard or drawers.

LOW MAINTENANCE

This longest of wearing cooktop surfaces is cleaned easily with wipe-over cream cleansers and a non-abrasive cloth. Ceramic glass conditioners are available. The control knobs are easily removable for improved cleaning access. The raised trim and gaskets around the control knob shafts should contain any accidental spills and boilovers within the hob area for easy sponging up, and protect the electrical componentry below the ceramic surface.

Smeg 60cm ceramic cooktop

CUTOUT

height	49mm
width	590mm
depth	520mm
CUTOUT	
width	560mm
depth	490mm
packaged dimensions	85x600x550mm = 0.03m ³
net weight	8.2 kg
gross weight	9.2 kg
electricity supply	240 volt 50 Hz
electricity connection	hard-wired single phase
maximum current	25 amp
capacity	4 elements — 2 x 1800 watt, 180mm diameter 2x 1200 watt, 145mm diameter each zone thermostatically controlled each zone of infinitely-variable heat settings
supplied	seal instructions for installation, operation and maintenance
