## smeg electric oven, Classic design

### MULTIFUNCTION

					
fan forced	baker's function	convection	fan grill	static grill	defrost

canali knobs

<b>finish</b>	satin stainless steel, fingerprint proof
<b>size</b>	595mmH x 698mmW x 566mmD
<b>capacity</b>	92 litre gross; 78.7 litre net
<b>installation</b>	underbench or wall (column) fascia: flushmount
<b>thermostat</b>	variable 50–250°C
<b>multifunction</b>	five cooking functions plus defrost
<b>fully automatic</b>	24-hour digital — time of day, fully automatic, semi automatic, minute minder, manual override
<b>cavity cooling</b>	independent self-cooling carcass fan
<b>furniture</b>	grill/roasting/baking tray, 2 x chrome wire shelves, two non-stick flat trays, removable roof liner, safety-grip handles
<b>interior enamel</b>	Ever-Clean
<b>safety</b>	thermal overload protection safety-notched furniture triple-glazed door forced-air door cooling
<b>warranty</b>	two years parts and labour

### GIANT CAPACITY

Cleverly, the capacity of a giant 90cm Smeg oven has been retained with a more compact 70cm format. The side fascia panels have disappeared and a new ceramic insulation is inserted between the carcass walls to eliminate heat transference to adjacent cabinetry.

### SMEG THERMOSEAL

Unique to smeg is the fully sealed, non-venting oven. This sealing ensures full capacity loading, lower temperatures and faster cooking.

### EVER-CLEAN ENAMEL

Smeg's enamelling process is unique, creating a silky-smooth finish on oven interiors and baking trays. A combination of formulae, coating application and firing processes creates a truly superior result. The enamel finish is pyrolytic quality and is used on all models, both standard and pyrolytic, in the range.

### SELF SUFFICIENCY

The thermoseal ensures cooking does not require the addition of fluids (fats, oils) to maintain a moist cooking environment. Nor does the oven require attention — that is, turning, basting or repositioning while grilling, roasting or baking.

### MAXIMUM EFFICIENCY

Sustainable lower temperatures, shorter cooking durations and higher capacities combine with virtual 'hands'free' cooking in a non-polluting, non-venting system, delivering both a costing and lifestyle efficiency.

### FULLY AUTOMATIC

The SCA706X oven can be pre-programmed to start and finish cooking. It is also semi automatic in that the cooking is started manually and then programmed to finish at a set time. There is also the 'minute minder', variable up to 23 hours and 59 minutes. This simply counts down to an audible signal with volume variability, a perfect reminder call to return to the oven for, perhaps, a cooking adjustment. These timing applications help ensure perfect cooking results and, importantly, peace of mind.

### REMOVABLE ROOF

Also uniquely Smeg is the removable Ever-Clean enamel roof over the grill elements. Historically this is the most inaccessible and difficult area of an oven to clean. Now, simply slide this liner out for easy wiping over or dishwasher loading.

### CLEANER COOKING

Since the oven cavity is denied a vented air supply, there is reduced splatter and oxidising ('burning-on') of food particles and fluids onto interior surfaces and oven furniture.

### LOW MAINTENANCE

The oven cavity is constructed of both continuous enamelled sheeting and full strip-welded panels. This, as well as ensuring the thermoseal is intact, allows for very easy access for cleaning with the absence of hidden crevices and abrupt joints. Even the rear enamelled wall is detachable for access and removal of the oven fan. All the removable parts and oven furniture (racks and trays) are dishwasher safe.

### SAFETY COOLING

An independent fan sources air from the kitchen and passes this air through the control panel and then around the carcass of the oven, exiting at the lower front of the oven back into the kitchen. The triple-glazed door, in unison with the cavity cooling system, ensures all external surfaces are safe to touch.

REAR ELEVATION  
RIGHT-HAND CORNER

- packaged dimensions** 690mm x 760mm x 670mm = 0.35m<sup>3</sup>
- net weight** 44kg
- gross weight** 48kg
- internal oven dimensions** 340mmH x 615mmW x 440mmD = 92 litre
- net cooking dimensions** 310mmH x 605mmW x 420mmD = 78.7 litre
- maximum current** 13.2 amp
- electricity supply** 240 volt 50 Hz
- electrical connection** connected 1.0 metre power cord with 3-pin 15 amp plug for direct plugging to a dedicated 15 amp socket
- supplied** screws for mounting, instructions for installation, operation and maintenance, cookbook, grill/roasting/baking/tray, 2 x chrome-wire shelves, 2 x flat non-stick trays, removable roof liner, grill grid
